

Fifteen of the more interesting higher-quality Canadian UFO reports in 2021

February 3, 2021 9:05 am

Tiny, ON

A witness saw “a plane with no wings” that changed shape to a perfect triangle with three points of bright light, like bright stars floating in midair. The three lights became 10 to 15 lights that then scattered across the sky. MUFON

March 20, 2021 6:16 pm

Toronto, ON

The pilot of a Lufthansa Airbus flying from Toronto to Frankfurt, Germany, reported sighting an object described as a red drone climbing through 12600ft, just west of the CN Tower. CADORS 2021O0274

May 9, 2021 4:00 am

Hudson Bay, SK

A Delta Air Lines aircraft flying from Fairbanks, Alaska, to Minneapolis, Minnesota was cruising at 39000ft when the pilot asked ATC as to the identity of the traffic well above them and moving right to left. The controller advised that there was no known traffic in the area. The pilot replied that they couldn't figure out what it was, either. CADORS 2021C1804

June 8, 2021 10:20 pm

Mont-Carmel, PQ

A small glowing sphere flew in large circles over a field, only about 4 or 5 feet off the ground, at high speed. It flew near hay bales and buildings, passed over a cedar hedge, crossed a road and disappeared into the distance. AQU

June 20, 2021 8:55 am

Langley, BC

At 5000ft, the pilot of a Cessna “reported an unknown black object off its wing. The object was approximately 1-2 meters in length and was also at 5000ft. No other sightings by other aircraft in the vicinity.” CADORS: 2021P0909

July 10, 2021 6:00 am

Blainville, PQ

A strange dark, cloudlike object changed shape, multiplied, changed colours and became several shiny objects while other clouds remained unaffected. AQU

July 11, 2021 9:16 am

Over southern Ontario

A Skywest airliner from Boston to Chicago and an Allegiant Air airliner from Boston to Grand Rapids were “co-located” on Michigan ATC radar at 34000ft and 36000ft, respectively. A “splat” appeared on radar 0.2NM ahead of both aircraft at 36000ft. The conflict alert sounded. The controller queried both pilots what they were seeing on their traffic alert and collision

avoidance system (TCAS). Each identified the other but had no other targets on TCAS or visually. The anomalous target remained co-located with the airliners for approximately three minutes. CADORS: 2021O0973

July 29, 2021 9:55 pm

Anticosti Island, PQ

A Department of National Defence aircraft from Trenton, Ontario, to Cologne, Germany, and a KLM Royal Dutch Airlines Airbus from Boston, Maryland to Amsterdam, Netherlands, both reported seeing a bright green object fly into the clouds and then disappear. The former aircraft was at 30000ft and thought it was flying; while the latter was at 40000ft and thought it was much higher space debris. There was no indication of the direction of movement, speed or any identifying marks. CADORS 2021A0440

August 28, 2021 9:15 pm

Mission, BC

A black, boomerang-shaped object silently flew over a witness, blocking out the stars as it progressed. It was seen for only four seconds. UFOROM

September 11, 2021 8:56 pm

Pembroke, ON

A witness took photos of a cube-shaped object with a glow underneath it. MUFON

September 12, 2021 8:19 pm

Oshawa, ON

A stationary silent object with a bright light, looking like a bright star, moved slowly west then disappeared. MUFON

September 19, 2021 9:00 am

Parry Sound, ON

A pilot was flying his plane 8NM north of Parry Sound at 3000ft and "almost hit" a white and red dome-shaped object. The aircraft's right wing came within ten feet of the object. CADORS: 2021O2248

October 11, 2021 11:22 pm

Calgary, AB

Five faint lights in a chevron or V formation flew from the northwest to the south, across approx. 70 degrees of sky, before vanishing like satellites into the shadow of the Earth. MUFON

October 19, 2021 12:20 pm

Amos, PQ

An odd, shiny, rectangular cloudlike object seemed to change shape and then vanish suddenly. A photo of an irregular object was provided to AQU.

November 25, 2021 7:47 pm

Uxbridge, ON

A dark grey, domed, disc-shaped object with "legs" and which had a bright steady red light in the middle, glided beside a highway then disappeared behind trees. It was seen for two to three minutes. Reported to UFOROM.
