

Crop circles and other physical traces associated with UFOs reported in Canada

- *188007 East Kent, Ontario
In July of 1880, David Muckle and W.R. McKay heard a sudden loud report. They turned to see a cloud of stones flying upward from a spot in a field. They examined the spot, which was circular and about 16 ft. across. There was no sign of an eruption nor anything to indicate the fall of a heavy body there. The ground was simply swept clean. (*Scientific American*, July 10, 1880).
Source: Ted Phillips
- 400108 Abitibi, Quebec
5 small men were observed by two lumberjacks. The witnesses followed their very small marks in the snow. They arrived at a large hollow in the ground, free from snow, and the traces stopped there.
Source: Donald Cyr et al.
<http://ufologie.patrickgross.org/ce3/1940-01-08-canada-abitibi.htm#dc1>
- 5312 Sherbrook, Nova Scotia
A witness saw two "indescribable" shadows, a while later a large round object took off some 350 ft. away with a blue-green light. Police found broken bushes as evidence of an enormous weight. Animals reacted.
Source: Vallee, Ted Phillips
- 54 Vivian, Manitoba?
Circular area devoid of plant growth.
Source: Henry McKay
- 540621 Ridgeway, Ontario
Two witnesses saw a round object some 50 ft. in diameter with a dome and multi-coloured lights. Their car would not start during the observation. Later, a large, brown circular area was found where the object was seen.
Source: Vallee, Ted Phillips
- 540807 St-Bernard Lacolle, Quebec
Luminous ball landed, door opened and "a man with big round eyes", 7 feet tall, came out, dressed in skintight black "rubber." After object took off, investigators found a 30-foot circle of flattened grass.
Source: Vallee, Wilkins, et al.

- 62 Wooler, Ontario
25 foot circle was found, formed by an 18 inch ring.
Source: Henry McKay
- 64 Ballantrae, Ontario
Local residents found an area 50 foot in diameter cleared of vegetation. At the outer edge the ground was seared to a crisp, leaving bits of charcoal. The outer ring was about 3 feet wide. Five years later, no vegetation had grown. Above the circle, tall 100 foot high oak trees still grow, but the branches which hung over the circle are dead. It is estimated [that] the time of the landing was June, 1964, as numerous UFOs were reported in that area at the time.
Source: UFORC, Ted Phillips
- 641108 Saint-Alexis-de-Montcalm, Quebec
A lighted object appeared at treetop level, and left wide circle of crushed vegetation, tree branches down, pole calcined.
Source: Vallee, Ted Phillips
- 6502 ?, Alberta
A farmer noted three rings which were much greener and about 30 to 40 feet in diameter. The outer rings were not more than 2 foot in width. They were not fairy rings or fungus growth. The grass was dark green and 4 inches taller than the rest.
Source: Saucers, Space and Science; Ted Phillips
- 650414 McLeod Hill, New Brunswick
Loud hissing object seen hovering low over farm field. Following morning series of circular holes found in field.
Source: CUFOR
- 6505 Willowdale, Ontario
A witness observed a light in the woods. It moved to the tree-tops and disappeared to the west. A few days later, while walking through the area he found a ring 35 feet in diameter with an outer ring 3 feet wide.
Source: Saucers, Space and Science; Ted Phillips
- 6506 Frankford, Ontario
Three perfect rings 23 inches in diameter were found. The grass was growing about 18 inches high on either side of the rings, and each ring was about 16 inches wide. UFOs were reported on the area at the time.
Source: U of T, Saucers, Space and Science, Ted Phillips

- 65 Sharon, Ontario
A "landing ring" was found near an area which had UFO activity.
